(PATENT)

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of:
Manfred Brockhaus et al.

Confirmation No.: 5613

Application No.: 08/444,791

Art Unit: 1644

Filed: May 19, 1995

Examiner: R. B. Schwadron

For: HUMAN TNF RECEPTOR

TRANSMITTAL OF REPLACEMENT DRAWINGS

MS Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Madam:

The Notice of Allowability, mailed on February 15, 2012, indicated that corrected drawings must be submitted that include the changes required by the Notice of Draftsperson's Patent Drawing Review dated February 21, 1996. In response, please replace the previously submitted Figures 1-6 (9 sheets) with replacement Figures 1-6 (16 sheets) submitted herewith.

Figures 1-4 were objected to for i) having lines, numbers and characters not uniformly thick and well defined, ii) having numbers and characters that were not plain and legible, iii) having improper margins, and iv) having improperly labeled views. Applicants believe replacement Figures 1-4 render these objections moot and put the application in compliance with 37 C.F.R. 1.84 and 1.152. The content of replacement Figures 1-4 is identical to the previously submitted Figures 1-4, and the replacement drawings do not add new matter to the application.

Figures 5-6 were not objected to by the Draftsperson. However, Figure 6 was revised to be consistent with replacement Figures 1 and 4. The content of replacement Figure 6 is identical to the previously submitted Figure 6, and the replacement drawing does not add new matter to the application. Replacement Figure 5 is submitted as a courtesy to the Office, and is identical to previously submitted Figure 5.

Dated: February 28, 2012

Respectfully submitted,

By: /Sharon M. Sintich/
